

COMMUNICATION OF THE ENVIRONMENTAL PERFORMANCE OF BCT METALS TO INTERESTED PARTIES 2020

In **BRYANT COMMERCE TRADING, S.L., BCT METALS**, we are committed to the environment, for this we have established a Quality and Environmental Management System, in accordance with the UNE-EN ISO 9001: 2015 "Quality Management Systems. Requirements" and UNE-EN ISO 14001: 2015 "Environmental Management Systems. Requirements with guidance for its use".

Regarding the environmental performance of our activities in 2019, we highlight:

- Direct and indirect environmental aspects have been identified, evaluating them according to the evaluation criteria defined in the management system documentation.
- All processes have been analyzed taking into account the Life Cycle of our products and services, which has allowed us to improve the systematic monitoring and measurement of associated environmental aspects.
- Environmental indicators have been reviewed to find out the evolution of our environmental behavior.
- The list of applicable environmental requirements is kept up to date, evaluating their compliance periodically.
- An effective operational control of the identified environmental aspects is carried out.
- A procedure has been established and implemented to deal with possible environmental emergencies.
- From the comparison between the result of the 2019 indicators and the values of reference, the most significant environmental aspects have been obtained, which have served as the basis for defining environmental objectives for 2020.
- The natural gas consumption of the office boiler has been reduced by 20%, compared to the data of the previous year.
- We have moved to offices more adapted to our needs. In the in selecting the new facilities, we have taken into account the environmental impact of our activities and the applicable legal requirements.
